

Test 1 Notice

This is to remind all students that next class - class 8 is our midterm test. It will include all material taught in class from class 1 - 6. Teacher will take up the previous homework before test.

Topics:

1. An introduction to vectors
2. Applications of vectors (1) and (2)
3. Equations of lines and planes
4. Relationships between points, lines and planes (1) and (2)

The test will be open book. You can use all material provided by Olympiads School (ie. Notes, homework, notes taken in class). However, no sharing is allowed during test.

Please bring a **scientific calculator** for the test. There will be no notes nor homework for class 8.

Good Luck!
