

Test Notice

This is to remind all students that next class - class 8 is our midterm test. It will include all material taught in class from class 1 - 7.

Note that the review package includes a last section on Trigonometric Function. That is NOT going to be on the test next class.

Topics:

1. Rational Expression
2. Complex numbers
3. Transformations of Functions (1) and (2)
4. Trigonometry (1) and (2)

The test will be open book. You can use all material provided by Olympiads School (ie. Notes, homework, notes taken in class). However, no sharing is allowed during test.

Good Luck!
